Food Processing, preparation, and cooking solutions

About Us

Hanrow Ltd specialises in the supply of machines, equipment, parts, and services for food processing companies throughout the UK, Ireland and beyond.

Being a main agent for many of the world's top manufacturers in this sector enables Hanrow Ltd to offer a broad range of equipment.

Hanrow Ltd continues to diversify its range of equipment, developing and expanding specialist equipment in the UK.

This booklet contains just a small selection of what we can offer.

Test Kitchen

In 2019 Hanrow Ltd opened its popular new test kitchen on its UK site.

With a range of demonstration units, this gives the customer the opportunity to see our machines in action whilst assessing the product that the machines delivers.

Please contact us to arrange a visit.

Brands

Below are just some of the brands we are pleased to offer equipment from.

ABCHAT Chateau Machine

The ABCHAT Hand Chateau Machine is a simple, robust chateau cutter that produces the perfect seven-sided chateau potato between 30 and 70 grams. Easy to use, this manual machine can also cut carrots and other root vegetables.

Dimensions	0.3m x 0.2m x 0.19m
Weight	3.5kg
Capacity	Up to 400kg/hr
Cutting Sizes	Adjustable from 30-80g

For higher production levels we also supply the Cheftec Maestro. Able to produce over 750 50g chateaus per hour.

Please contact us for more information

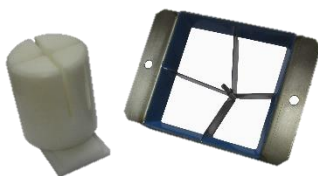

Manual Plugger

The manual hand plugger pushes potato or other vegetables through changeable grids to create the desired shape and size product. Hanrow Ltd can supply various sizes of grids to create chips, fondants, and other special shapes.

Dimensions	0.6m x 0.7m x 1.55m
Weight	12kg
Capacity	Subject to cutter used
Cutting Sizes	Chips 8-30mm
	Fondants 20-80mm
	Shapes E.g. Hearts/Shamrock
	More shapes on request

We supply many different shapes as well as the standard chip and fondant grids. For example, we have supplied heart and shamrock grids, Christmas trees, thistles, and stars.

ABM Auto Baton Machine

Now an industry standard, the FO Baton Machine tops and tails carrots to a pre-determined length then pushes the pieces through a grid to produce the perfect batons.

Dimensions	0.95m x 1.45m x 1.7m
Weight	180kg
Capacity	Approximately 500kg/hr
Cutting Sizes	Standard 8.5mm, 10mm Other sizes on request

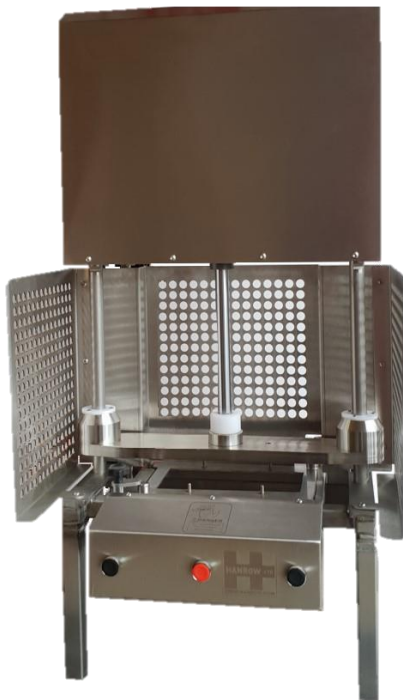

To remove the slithers and bits we can also supply a Hanrow De-Slitherer machine.

Please contact us for more information

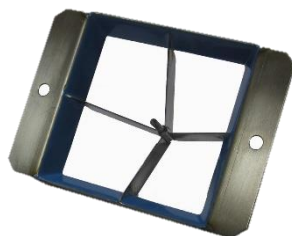

PNPR Pneumatic Press

The Pneumatic Vegetable Press, designed to accommodate our standard 120mm cutting grids, is able to cut a diverse array of products.

At a rate of over 2000 cycles per hour, and easy to change cutting heads, this high-volume machine can produce a large variety of cuts such as chips, wedges, or slices.

Dimensions	0.7m x 0.5m x 1.2m	
Weight	120kg	
Cutting Sizes	Chips	8-30mm
	Fondants	20-80mm
	Shapes	E.g. Hearts/Shamrock
		More shapes on request

Please contact us for more information

TD2 Three-Dimensional Dicer

The TD2 Three-Dimensional Dicer can accurately dice a wide range of fruit and vegetables.

Constructed in stainless-steel with aluminium housing allows us to offer the most competitively priced dicer on the market.

Ideally suited for batch production of high-quality dice, the TD2 can produce a perfect dice as small as 3mm, even with onions.

Dimensions	0.94m x 0.67m x 1.455m
Weight	105kg
Capacity	Up to 1000kg/hr
Cutting Sizes	3mm, 5mm, 10mm, 12mm, 15mm, 20mm, 25mm

All cutting group parts are available individually so that other sizes and cuts like chips or pasty flake can be produced.

Julienne Carrot

Potato Chips

10mm Dice Carrot

Please contact us for more information.

TD500S Dicer

The TD500S dicing machine is able to dice an extensive range of fruit and vegetable in quantities that used to be the reserve of only the largest processing units.

Developed to meet all the required safety and hygiene standards, the TD500S can be supplied with a full range of dicing sets from the small precision 3mm brunoise cut to the largest 25mm dice.

Dimensions	1.75m x 1.257m x 1.6m
Weight	400kg
Capacity	800-3000kg/hr
Cutting Sizes	5mm, 8mm, 10mm, 12mm, 15mm, 20mm, 25mm

5mm Cucumber

10mm Peppers

15mm Sweet Potato

Please contact us for more information

KG353 Preparation Machine

The Kronen KG353 is a fully stainless-steel multi-purpose food processing machine designed and made in Germany.

This powerful three speed unit, cuts at 250, 350 or 450 rpm. A slower, gentle cut for soft fruit and vegetables, and full speed for hard products such as cabbage or raw vegetables.

The tube feeder built-in to the Feed Cylinder reduces the need for pre-cutting.

All detachable parts are dishwasher safe.

Dimensions	0.29m x 0.9m x 0.8m	
Weight	35kg	
Capacity	15kg/min	
Cutting Sizes	Fine Cut Slice	1mm, 2mm, 3mm
	Slicing	4mm, 5mm, 6mm, 8mm, 10mm
	Dicing	7.5mm-20mm
	Crimp/Julienne/ Grating/ Shredding sizes	on request

Please contact us for more information

RG400i Preparation Machine

The Halldé RG400i is a floor standing fully stainless-steel, multi-purpose food processing machine designed and built in Sweden.

It is available with many cutting solutions and has 5 separate feeders for maximum flexibility.

The RG-400i is available in models that are specially-adapted to different environments.

<p>Dimensions</p> <p>Weight</p> <p>Capacity</p> <p>Cutting Sizes</p>	<p>0.56m x 0.7m x 1.21m</p> <p>63kg</p> <p>15kg/min – 40kg/min</p> <p>Slicing 0.5mm, 1mm, 1.5mm, 2mm, 3mm, 4mm, 5mm 6mm, 7mm, 8mm, 9mm, 10mm</p> <p>Dicing 6.25x6.25mm, 7.5x7.5mm, 10x10mm, 12.5x12.5mm, 15x15mm, 20x20mm, 25x25mm</p> <p>Crimp/Julienne/ Grating/ Shredding sizes on request</p>

Slicers

Grater/Shredder

Julienne Cutters

HC Slicers

Crimping Slicer

Please contact us for more information.

TS170 Belt Slicer

The TS170 Belt Slicer has a 170mm wide feed belt, reducing the need to pre-cut raw product and speeding up production.

A high capacity unit, the TS170 is designed to be simple to operate with a quick-release blade system and is controlled by a Delta DOP touch-screen interface.

Dimensions	1.865m x 0.73m x 1.225m
Weight	280kg
Capacity	1500kg/hr
Cutting Sizes	1mm-60mm

Other special knife sets are available on request

3mm Cabbage

170mm Wide Belt

2mm Leek

Please contact us for more information

TR500 Knife Peeler

The TR500 is a stainless-steel knife-peeling machine for peeling potatoes, Beetroot, kohlrabi and more.

It has a removable peeling disc with 10 long and 10 short peeling knives. The peeling disc has two agitators to turn the produce with a minimum of bruising.

With a compact design and construction, the TR500 is ideal for small production runs.

Dimensions	1.08m x 0.7m x 1 m
Weight	160kg
Capacity	Up to 15kg/cycle

Beetroot

Sweet Potato

Please contact us for more information

TJ300 Slicer/Shredder

The TJ-300 is a new vegetable cutting machine designed for shredding and slicing root vegetables and other products such as nuts and cheese.

An all stainless-steel machine, the cutting head can be quickly changed to allow for variation in cut.

<p>Dimensions</p> <p>Weight</p> <p>Capacity</p> <p>Cutting Sizes</p>	<p>1.085m x 0.795m x 1.525m</p> <p>150kg</p> <p>500-2000kg/hr</p> <p>Slicing 0.8mm, 1mm, 1.5mm, 2mm, 3mm, 4mm, 4.8mm 5mm</p> <p>Julienne 2.4x2.4mm, 2.4x4mm, 2.4x4.8mm, 2.8x2.4mm, 2.8x4.8mm, 4x4mm, 4x8mm, 4.8x4.8mm, 4.8x9.6mm</p> <p>V Cut Slice 1.8mm, 2.5mm, 3mm</p> <p>Oval Cut Shred 2.8x5.2mm</p> <p>Crinkle Cut Slice 1mm, 1.2mm, 1.5mm, 2mm</p>

BNSP Butternut Squash Peeler

Redeveloped to suit the European market, the Butternut Squash Peeler is designed to dry-peel, giving a uniform and consistent surface. It has a unique depth adjustable peeling blade which can be easily set to produce the quality and peel of squash you require.

Dimensions	1.9m x 0.93m x 1.6m
Weight	210kg
Capacity	Up to 180 pieces/hr

BSM Bean Slicer

The BSM Bean slicing machine tops and tails the product to the desired length. Custom built to specification the BSM is successfully processing beans, carrot, baby-corn and spring onions in the UK and overseas.

Dimensions	0.9m x 0.7m x 1.65m
Weight	120kg
Capacity	Dependant on long or short infeed belt
Cutting Sizes	Standard - 3x40mm, 3x50mm Other sizes available on request

Please contact us for more information

FAP-1001 Astra Fruit Peeler

The FAP-1001 Astra Fruit Peeler is a high-speed stainless-steel machine able to peel an array of fruits and vegetables. With an adjustable peeling depth, the FAP-1001 can also peel wonky fruit and vegetable and is precise enough for surface peeling zest. The machine also has an automatic ejector which separates the product and the peel.

Astra also manufacture smaller machines for smaller production needs.

Dimensions	Unit	0.512m x 0.575m x 0.365m
	Base	0.7m x 0.52m x 0.805m
Weight	Unit	35kg
	Base	22kg
Fruit Size		40-120mm

KA-750PM

KA-851

KA-730M

Please contact us for more information

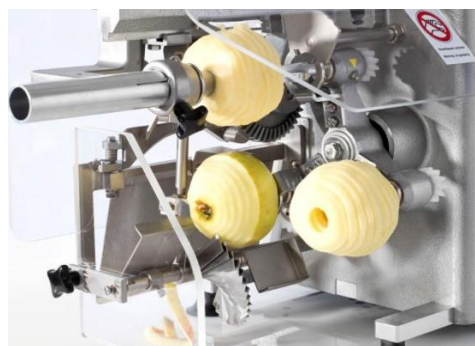

Feuma ASETSM-E Apple Peeler

The ASETSM-E Feuma Apple Peeling Machine peels, cores, and divides fruit.

Simple to clean and maintain, the ASETSM-E can be used with slicer and dividing star attachments to produce the required size slice or wedge.

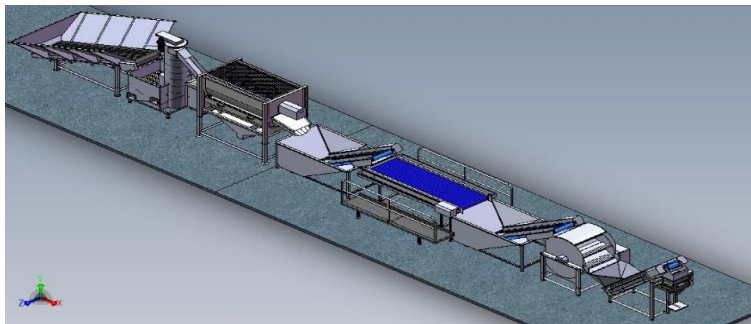

Dimensions 0.3m x 0.78m x 0.45m
Weight 30kg
Capacity 70-100kg/hr

**Please contact us for
 more information**

Peeling Lines

For an efficient, high-volume peeling line to work well many variables need to be considered at the design stage. Experience can allow the designer to avoid issues and advise on any additional kit that may benefit and improve production.

Hanrow Ltd have extensive experience designing and advising on working peeling lines.

**Please contact us for more information
or to discuss your own peeling line needs**

TC50 Spinner

The TC50 free-standing centrifugal dryer has been designed to meet the most demanding requirements of the food processing industry.

The TC50 can be used to dry most fruit, vegetable, and salad materials as well as a diverse array of other food products that require accurate drying.

Dimensions	0.955m x 0.685m x 0.89m
Weight	150kg
Speed	730rpm
	Time and Direction programmable

Baskets can be supplied in blue or orange.

Hanrow Ltd also supplies a 2mm blue micro-mesh liner for the drying of small particle product such as tuna or prawns to minimise product wastage.

Please contact us for more information

PP22 Vacuum Packer

The Tepro PP22 is ideally suited for a 10Kg vacuum pack of potato. The machine is designed for packing food and non-food products quickly and efficiently with the standard double chamber design.

The PP22 is made of stainless steel and is equipped with two seal bars which are 490mm long. The lid moves between the chambers which speeds up the packing process.

A microprocessor driver with digital vacuum measurement is installed in the machine. It can have up to 25 packing programs, each with unique names.

Dimensions	0.73m x 1.m x 0.995m
Weight	320kg
Capacity	2 Chamber
Chamber Dimensions	0.53m x 0.6m x 0.18m
Sealing Bars	4 x 0.49m with Double Seal

Please contact us for more information

Sofia Batch Washer

The Sophia Batch Washer has an adjustable water-whirlpool washing system with constantly clean water that eliminates all dirt from even the most problematic vegetables in just three minutes.

Suitable for the washing of leaves, fruit, vegetables and more, the Sofia Washer has a built-in discharge powered by a hydraulic cylinder.

Dimensions	1.47m x 1.33m x 1.2m
Weight	220kg
Capacity	20-40kg/cycle
Cycle Length	3-4 mins

TW3000 Flume Washer

The TW3000 is a continuous Flume Washer, that can wash a wide range of fruit and vegetables.

It has a built-in weir system and vibratory outfeed as standard.

Dimensions	1.12m x 4.557m x 1.65m
Weight	220kg
Capacity	

Please contact us for more information

Preserving & Monitoring

Hanrow Ltd supply a range of preserving chemicals and monitoring solutions.

From the SP1 potato preservative which extends shelf life to the OW1 Organic Wash, OP1 Organic Preservative, AF10 Anti-Foam and OP3 Organic Preservative.

Pre-serve offer a complete range of Solutions for washing and preserving.

To monitor chemical use, Hanrow Ltd supplies a full range of products from basic hand-held meters to fully automated dosing systems. These not only save time but reduce chemical wastage and ensure that the products are correctly used.

Please contact us for more information

Tellier OE750 Can Opener

The Tellier OE750 Can Opener is a high-capacity, industrial, electric can opener, easily adjusted so it is able to open all types of cans.

Hard-wearing, it opens cans easily and effortlessly without creating fillings.

Dimensions	0.3m x 0.3m x 0.75m
Weight	32kg
Capacity	400-500 cans/hr
Can Height	5-27cm

Edlund 610 Crown Punch

The Edlund 610 is an Air-powered Crown punch can opener, ideally suited to open large volumes of the same size can.

The Crowns are designed to suit a wide range of sized tins but the most common is the A10.

Dimensions	0.263m x 0.344m x 0.514m
Weight	24.8kg
Capacity	400 cans/hr
Cutting Sizes	Up to 27.9cm
